

CULTURAL RESOURCES

Tinian

ALTERNATIVE 2

PLANNED ACTIVITIES

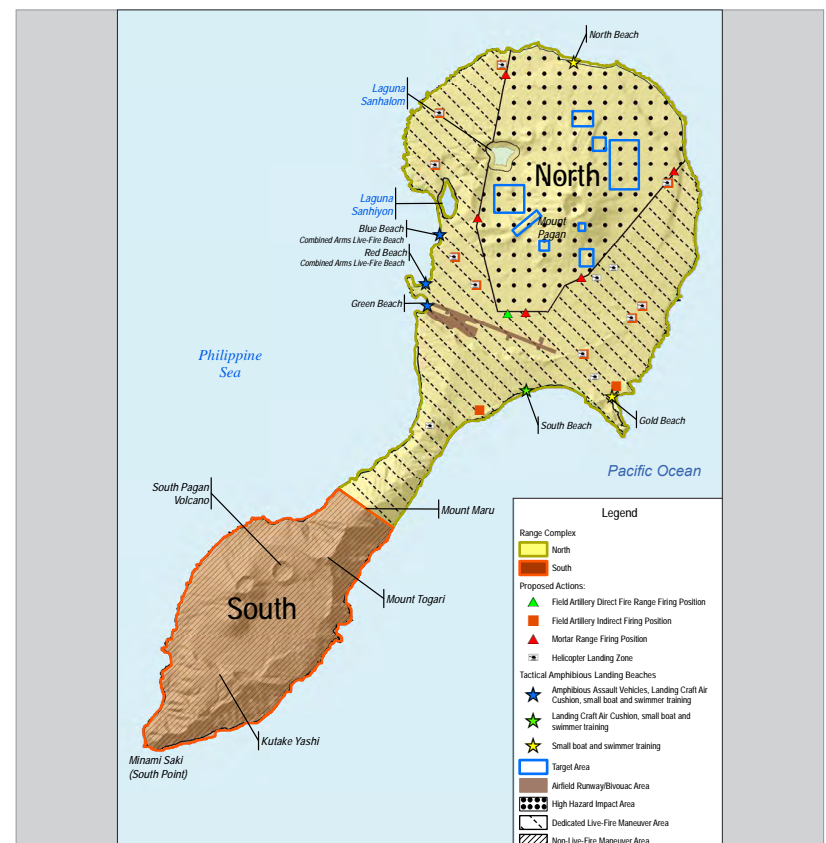

- Lease of areas at Tinian International Airport and the Port of Tinian
- Construction of permanent facilities (roadways, fences, pipelines, training facilities, watercraft landing, munitions storage, utilities, etc.)
- Airport use & construction of new facilities
- Port of Tinian use & construction of new facilities
- Limited public access through fence lines and gates
- Live fire and non-live fire training operations up to 20 weeks (and potentially 40 weeks) per year
- Elimination of the International Broadcasting Bureau
- Ongoing vegetation management
- Restricted airspace and marine areas

Issues

- Damage/destruction to known archaeological sites that encompass the breadth of Tinian history
- Damage/destruction to undiscovered archaeological sites that may include all phases of Tinian history
- Restricted or permanent loss of access to archaeological sites, historic landmarks, and culturally important areas, including “Traditional Cultural Properties”
- Restricted access, depletion or destruction of culturally important resources, such as medicinal plants, fish, etc.
- Changes in setting, feeling and sense of place of the landscape due to noise, visual impacts, changes to access, etc.

Pagan

ALTERNATIVE 2

PLANNED ACTIVITIES

- Lease of the entire island
- Construction of permanent facilities (base camp/non-paved tent pads, fenced munitions storage, training facilities, watercraft landings, etc.)
- Airfield improvements (runway extension, refueling areas, drop zones, vegetation management, etc.)
- Limited public access through fence lines and signage
- Live fire and non-live fire training operations up to 16 weeks (and potentially 40 weeks) per year
- Ongoing vegetation management
- Restricted airspace and marine areas

Issues

- Damage/destruction to known archaeological sites that encompass the breadth of Pagan history
- Damage/destruction to undiscovered archaeological sites that may include all phases of Pagan history
- Restricted or permanent loss of access to archaeological sites, historic landmarks, and culturally important areas, including “Traditional Cultural Properties”
- Restricted access, depletion or destruction of culturally important resources, such as medicinal plants, fish, etc.
- Changes in setting, feeling and sense of place of the landscape due to noise, visual impacts, changes to access, etc.
