

SOCIAL EFFECTS

Tinian

ALTERNATIVE 2

PLANNED ACTIVITIES

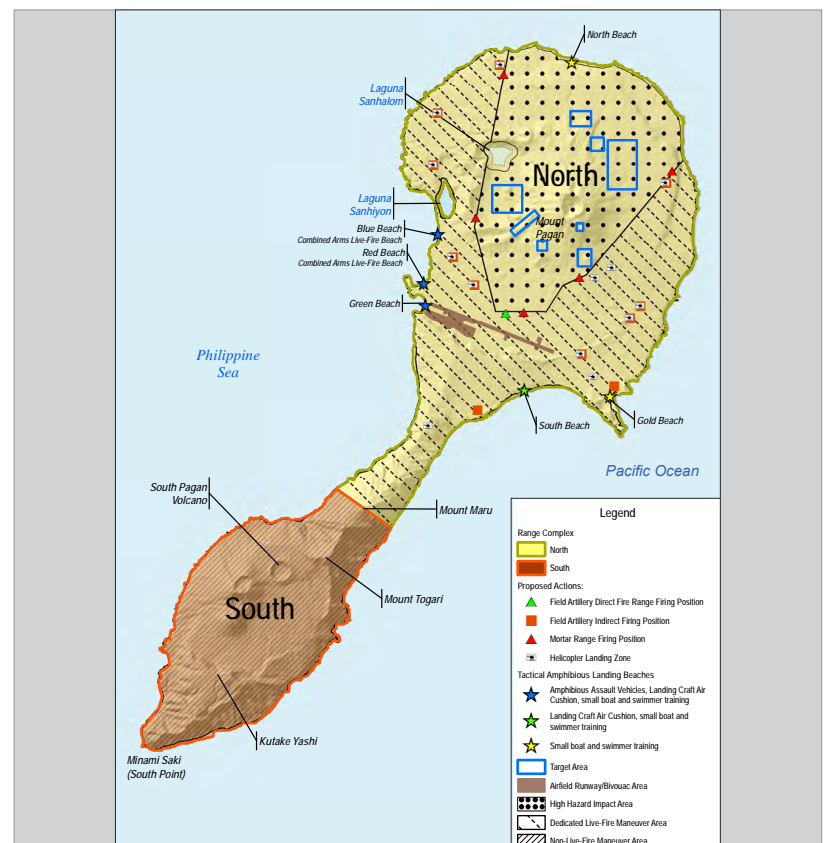

- Lease of areas at Tinian International Airport and the Port of Tinian
- Construction of permanent facilities (roadways, fences, pipelines, training facilities, watercraft landing, munitions storage, utilities, etc.)
- Airport use & construction of new facilities
- Port of Tinian use & construction of new facilities
- Limited public access through fence lines and gates
- Live fire and non-live fire training operations up to 20 weeks (and potentially 40 weeks) per year
- Elimination of the International Broadcasting Bureau
- Ongoing vegetation management
- Restricted airspace and marine areas

Issues

- Decreased access to areas used for agriculture, hunting, fish, and gathering
- Fewer opportunities to practice cultural activities and to maintain social cohesion
- Interference with tourism
- Noise and environmental health impacts to children
- Disproportionate effects on local peoples and income groups
- Change in community character

Pagan

ALTERNATIVE 2

PLANNED ACTIVITIES
